Profile

Dynamic professional with a passion for solving complex problems and creating innovative solutions in technology-driven environments. Committed to enhancing operational efficiency through application support, project management, and low/no code development. Thrive in collaborative settings and dedicated to driving automation and technology

Professional Experience

2022/12 – 2022/12

Blockchain Developer
Freelancer
- Contributed to the development of a metaverse game by designing new 3D models.
- Utilized various front-end technologies such as ReactJS, NextJS, and Tailwind CSS to deliver an interactive and engaging user experience.
- Worked closely with clients to understand their requirements and provide ongoing support.
- Conducted regular testing and bug fixing to ensure the game was functioning optimally.

2022/11 – 2022/12

Full Stack Developer
Freelancer
- Designed and developed a CRUD (Create, Read, Update, Delete) blog application using MERN (MongoDB, Express, React, NodeJS) stack.
- Implemented full CRUD functionalities for blogs, users, and categories.
- Utilized NodeJS and Express to set up a robust and scalable back-end system, connecting to MongoDB for data storage.
